

Green Set

The Green Set explores words ending in **ink** in Green 1, **ing** in Green 2, **-ing** as a participle in Green 3 (e.g. jump**ing**), **ank** and **ang** in Green 4, **unk** and **ung** in Green 5, and **ong** and **onk** in Green 6. The seventh drawer serves as a review.

Prior to the introduction of the first drawer, explore words ending in **ink** with the moveable alphabet. Change the beginning letter/sound to make new words to read (e.g. **r**ink to **s**ink). Remember that you can use blends and digraphs because they have been previously introduced. Proceed with the Standard Sequence of Presentation for the first drawer only moving on to the next one when the child has shown mastery.

For the second drawer, change the **ink** to **ing**. Make new words. Proceed with the Standard Sequence of Presentation for the second drawer only moving on to third when the child has shown mastery. Repeat this introductory work with as you transition to each drawer before working through the Standard Sequence of Presentation for that drawer making sure that you are covering each of the included word endings. The seventh drawer is review and will not require this introductory work.

Note that, where there are two word endings in a drawer (as in Green 4, 5, and 6), you should place the two Picture Cards (e.g. **ank** and **ang**) at the top of the mat or workspace and have the child sort the Picture Cards between the two as you say them when you begin working through the Standard Sequence of Presentation.
